

All Purpose Coatings Pty Ltd is a well-established Australian company specialising in the design, formulation, manufacture and supply of Epoxy, Polyaspartic, Flake Systems & Urethane products and systems. The products are designed for a wide range of applications, however are primarily applied as a floor & wall coating over concrete.

The All Purpose Coatings team is dedicated to providing high performing, consistent and reliable products to clients. This is attained by sourcing high quality raw materials combined with the meticulous formulation of each product to an exceptional standard.

While being a specialist in the production & sales of protective coatings, APC has an exceptional reputation in the training of quality installers using the APC range of products. This ensures successful flooring solutions from production to installation.

While constantly striving to surpass industry standards and client requirements, All Purpose Coatings is committed to excellence and reliability in the Epoxy, Urethane and Coating industry. The company's outstanding reputation in this field is based firmly on client satisfaction.
