EPO100T® PLAIN COAT SYSTEMS

EXPERIENCE THE DIFFERENCE

APC EPO100® Epoxy Resin range is a high-performance product designed for Industrial and Commercial applications. Primarily applied to both floors and walls as a high chemical protective coating system.

With its outstanding chemical resistance and durability EPO100® as a roll coat it is ideal for residential, commercial and industrial projects across the board.

Coating a factory or warehouse floor EPO100® Epoxy gives a dust proof, easy to clean and maintain flooring solution. Coated floors increase light within the factory and complete the look and feel of any warehouse environment.
